WORK EXPERIENCE

Devops Engineer, VIKI | Singapore

October 2013 - Present

Migrated all the microservices to using Docker in Production and built a CI pipeline using Drone and to deploy to staging.

System Administrator, Webfaction | Mumbai, India

May 2012 - October 2013

I was working as a System Administrator for the Asian shift. My primary responsibilities were to manage the servers, ensure any problems were resolved in a timely manner and making tools to automate the problem identification and handling.

Support Engineer, Webfaction | Mumbai, India

September 2010 - May 2012

I was working as a Support Engineer for the Asian shift. My primary responsibilities were helping the customers understand and deploy the apps on our platform and solving the problems they face.

Systems Developer, MakeMyTrip | Gurgaon, India

July 2010 - September 2010

I completed a project for automated data-driven testing of the various sites using Selenium and Jenkins.

EDUCATION

NIT Allahabad

June 2006 - June 2010

Bachelor of Technology (Computer Science and Engineering) | Allahabad, India
